

Annex 1

Winners Novo Nordisk Prize for Diabetology

1991-1992: Professor André Scheen (Ulg)

"Le traitement insulinique du patient diabétique de type 1 :
presque sept décennies, toujours un défi"

1993-1994: Professor Françoise Fery (ULB)

"Rôles du foie et des tissus périphériques dans la pathogénie de l'hyperglycémie
basale et postprandiale du diabète de type 2"

1995-1996: Professor Frans Gorus (UZ Brussel)

"The importance of diabetes registries and clinical biology for the study and
treatment of type 1 (insulin-dependent) diabetes mellitus.
The Belgian paradigm"

1997-1998: Professor Bart Keymeulen (VUB)

"Beta-cell transplantation: from the bench to the bedside"

1999-2000: Professor Frans Schuit (VUB)

"The glucose sensor in neurons and islet endocrine cells"

2001-2002: Professor Kristien Van Acker (UIA)

"The diabetic foot a challenge for policy-makers and health care professionals"

2003-2004: Professor Miriam Cnop (ULB)

"Unravelling the relationships between body fat distribution,
adipokines, insulin resistance and pancreatic β -cell dysfunction in type 2 diabetes"

2005-2006: Professor Chantal Mathieu (KUL)

"Understanding the pathogenesis of type 1 diabetes through
therapeutic interventions in an animal model, the NOD mouse"

2007-2008: Professor Ilse Weets (VUB)

"Etiological and phenotypical heterogeneity of diabetes presenting before age 40
according to demographic and biological parameters: variable contribution of
genetic and external accelerators".

Professor Katelijne Decochez (VUB)

"Prediction of beta cell loss by islet autoantibodies:
Implications for prevention trials in humans"

2009-2010: Professor Pieter Gillard (KUL)

"Beta-cell transplantation in type 1 diabetic patients:
A work in progress to cure"
